OUR LEADER

Eastway's success team is lead by its hardworking founder Raymond Wan who graduated from University of Toronto. He was born in Hong Kong and he came to Canada for school in 1982. He has extensive experience in almost all aspect of construction including sourcing material to analyzing complex project requirement, meeting building codes and industry standards. He is a creative problem solver and excels at ensuring project on time and within budget.

Raymond Wan is:

- A registered Professional Engineer of Ontario Canada (P.Eng), 35 Years

- A member of the Toronto Cathay Lions Club
- Founding President of The Canadian Chinese construction Association
- Managing Director for OTT Properties Group
- Managing Director for Addington Developments

OUR SERVICES

Eastway has in house architect, designer and engineers for pre-construction and construction services. Our strength in estimating and preconstruction is our ability to understand how the project will be constructed in the field and in the ability to translate that scope into numbers that deliver the vision of the design team and owner. Executing the final construction plan is what we do best. Our associated building supplies and millwork companies contributes greatly to the scheduling and craftsmanship.

OUR FEATURE PROJECTS (PPT TO FOLLOW)

Sincerely yours,

Raymond Wan. P.Eng.
